Hi Steve:

FYI -- I have tasked CH2M HILL with amending this fact sheet to include additional information that will be helpful to us in investigating 1,2,3-TCP in the Area 3 OU. Specifically, they will conduct (limited) research on appropriate techniques for collecting and analyzing environmental media for 1,2,3-TCP and for remediating contaminated soil and groundwater. They potentially will include information obtained from a couple of sites where 1,2,3-TCP has been a problem (e.g., San Fernando Valley Burbank OU, site in Massachusetts?).

If SAIC already is conducting similar research to augment the information contained in this fact sheet, please let me know so we don't duplicate efforts.

Thanks.  
Lisa
